## 01

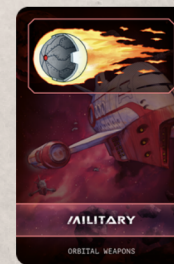

### Action drafting

Active Player selects one of the available actions (open draft) and adds the card to their table

## 02

### Action execution

All players execute selected action simultaneously by performing simple operations over cards, resources, and Terraforming Points. Active Player obtains additional benefits

## 03

### First player selection

After each player has selected the action, the players compare their military power and select the new First Player for the next round

## 04

### Game end

The game ends when N colonies are settled. The final score is calculated based on Terraforming Points and number of settled Colonies
